

Identity Theft

Deter • Detect • Defend

- ❑ **Shred** financial documents and paperwork with personal information before you discard them
- ❑ **Protect** your social security number
- ❑ **Don't** give out personal information on the phone, through the mail, or over the internet unless you know who you are dealing with
- ❑ **Never** click on links sent from unsolicited emails; instead type in a web address. Use firewalls, antispyware, and antivirus software to protect your home computer
